Sunday 12:00-1:00pm (practical and oral exams)

Pre-requisites: Successful completion of Level III

Prior mentoring highly recommended

Certification is an option for practitioners who choose to be recognized and identified as having a clear understanding and ownership of the work and its philosophy. The **Certification Program is an evaluation, not a refresher course**. The evaluation consists of oral, written and practical parts. You will need to prepare and we strongly suggest you meet with a Practitioner Mentor for a review ahead of the exam.

Certification is good for 12 months and allows you to promote yourself as one of the few more committed and recognized practitioners in your area. It is also a pre-requisite for those considering Kids! Program facilitator training.

**Note:** Fees for prior mentoring are not included in the examination fee.

- Certification Exam Fee: \$193 + GST (\$213)

This program was developed specifically to teach Reconnective Healing to children aged four to fourteen. It engages kids in a powerful, interactive play-workshop designed to introduce them to these intelligent, empowering and transformative new healing frequencies. Through age-appropriate games and activities, your child will discover and learn about this new spectrum of healing, and learn how to feel, find and play with the frequencies, and use them to help themselves, family, friends and pets.

Workshop facilitators have been trained by The Reconnection to teach and gently guide children through the discovery and learning process. All have been pre-screened and selected for their background and experience working with children.

**Note:** For more information about the workshops and about discounts for multiple children of the same family, see The Reconnection website or **contact Bronwyn directly by email or on 0414 670 419**.
